**HIGH PEAK  
ACCESS LTD**

High Peak Access Ltd is a rope access and geotechnical company based in the Peak District, Derbyshire. With our multi-skilled team, we specialise in services for heritage sites, national parks and to the quarrying industry. We work with clients across the UK including RSPB, Peak District National Park and more, supporting various projects such as drone survey & mapping, rock face netting, inspections, vegetation removal, geotechnical works and more.

We offer alternative access solutions for a wide range of services helping our clients to reach the solutions they need quickly and safely, such as the following:

Specialist Access incl. IRATA  
(Rope Access, MEWP, Scaffolding )

Geotechnical Services and  
Rock Fall Containment

Emergency / On-call Services

Vegetation Removal  
(cliff faces, castles, etc.)

121 Consultations & Site Visits

Inspections and Drone Survey

Scaling & Stabilisation

Confined Space + Rescue

Industrial Window Cleaning  
and Roof Maintenance

Please do not hesitate to contact  
us if you have any questions.
